Dermol TISC	Triisostearyl Citrate	Alzo International	12
Wickenol 535	Wheat Germ Glyceride	Alzo International	7.5
Phase B (Pigments)			
Unipure Red LC381 ADT-C	Iron Oxide (and) Isopropyl Titanium Triisostearate (and) Bis- PEG-15 Dimethicone / IPDI Copolymer (and) PEG-2 Soyamine	Sensient	5
Unipure White LC987 ADT-C	TiO2 (and) Isopropyl Titanium Triisostearate (and) Bis-PEG-15 Dimethicone/IPDI Copolymer (and) PEG-2 Soyamine	Sensient	7
Cloissson Sparkle Gold	Mica (and) Titanium Dioxide (and) Iron Oxides	BASF	5
Total			100

Manufacturing Procedure

- 1) Mix and melt the waxes and oils.
- 2) Add the colorants. Mix until homogeneous.
- 3) Pour into mold at approx. 80-85° C.
- 4) Fill into components.

Alzo Ingredient Benefits

Beantree – light & dry, 100% naturally-derived ester with a silicone-like feel

BioMade SA-HS - naturally-derived butter-like ester that melts at body temperature. Provides payoff & creaminess and is an alternative to shea or cocoa butters

Dermol DISD – excellent pigment wetter and provides shine in lip & hair products

Dermol TISC – shine, high gloss, substantivity to lips, lip softening and high emolliency
